Subj: Urgent: Need Your Insight on Critical Project Decision

Hi Zane,

I trust this message finds you well. I am reaching out to you today because I value your expertise and insights on a crucial matter related to the ongoing tablet rollout project.

As we progress with the project, Omar, our owner, has expressed a strong desire to expand the tablet rollout to cover all dining sections, deviating from our initial plan focused on the bar area. While Deanna expects us to explore this possibility, I am concerned about the potential challenges associated with such a significant expansion.

Here are two primary reasons behind my reservations:

Budget Implications:

Expanding the rollout to all dining areas would likely demand a considerable financial reallocation. Our current budget may not adequately cover the extensive requirements of a full-scale rollout, potentially affecting the financial health of the project.

Risk to Customer Satisfaction:

Rapid expansion poses a risk to our ability to uphold the high level of customer satisfaction we've consistently delivered. Ensuring a positive dining experience is fundamental to our brand, and a large-scale rollout could jeopardize this crucial aspect.

I believe maintaining the original plan, confined to the bar area, aligns with our initial vision and mitigates these potential challenges.

Your experience and perspective on these considerations would be immensely valuable as we navigate this critical decision. I am reaching out to seek your support in advocating for the original plan, emphasizing the potential risks and challenges associated with an expanded rollout.

Thank you for taking the time to consider this matter. I would greatly appreciate the opportunity to discuss this further with you at your earliest convenience. Your support in aligning our team's perspective will be instrumental in achieving our shared project goals.

Best regards,

Precious
Project Manager
